Telugu (regional)

🎯 OBJECTIVE

To obtain a challenging opportunity in the field of software development where I can apply my knowledge of full-stack development, contribute effectively to innovative projects, and continuously enhance my technical and problem-solving skills while growing as a professional.

🚀 PROJECTS

KeySprint

Web-based typing app that tracks WPM, accuracy, and weakest letters in real time, with Firebase authentication and a performance-based leaderboard.

NotifyMe

A personal wellness assistant that integrates an interactive chatbot with a reminder scheduling system to support daily routines and provide timely notifications for important tasks.

Hostel Outpass Management System

Web application that digitizes outpass requests, approvals, and gate verification, improving efficiency, transparency, and record management.
